To whom it may concern:

I worked with Milica Lawrence when she accompanied some of my students for their annual concert. She was always prepared, very committed and always there to help the students. I was really impressed by her level of sight-reading and the detail she looks for. Apart from accompanying, I also had the opportunity to assist to some of her solo playing and I might say she is a superb pianist and accompanist. Moreover she has a wonderful and humble character.
