07.09.2019.

It is sincere pleasure and honor to write a letter of recommendation for my professor Mrs. Milica Lawrence. As her student, I have seen many examples of her talent and have long been impressed by her diligence and playing.

I have had the pleasure of knowing Milica, she is enthusiastic, professional, creative and dedicate to her work. During each rehearsal, her creative ideas and knowledge encouraged me to raise my playing to an even higher level. As a musician Milica is able to successfully complete multiple tasks. Her performance is direct result of her hard work, experience and strong focus. She made contribution in music life in Kragujevac. I have also received many positive comments from other colleagues about Milica. As my professor, she was always available to me, even out of class, to give me good advice in the matter of playing.

I would gladly recommend Milica Lawrence as a very motivated and highly serious piano player for every kind of playing. And I'm sure she will be very valuable part of any team.

Sincerely,

Mina Antanasijević
